

"THE PUPIL"

The Subject Of A Fine Address By Dr. Hulley

At The Teachers' Institute Monday Afternoon

His Talk Was Concerning The "Bad Pupil"

Said Children Are Not All Good At First

"They Are Innocent But Not Good"

Monday Afternoon

Monday afternoon session was opened by singing, Mrs. Baker being at the piano. Dr. Hulley's address was on "The Pupil". He said his discussion would deal mainly with the bad pupil. It's often said that children are all good at first. "This is a false idea," he said. "They are innocent, but not good." He discussed the tendencies a child has inherited from a long line of ancestors and also the effect of his environment and home training on his actions. A teacher must take all these influences into account in dealing with the child. Many things that he does are not bad as judged from his standard. A teacher should aim to raise the child's standard of life. There are also many physical defects that should be taken into account. It is vastly important that a teacher should study a pupil carefully in order to understand him and thus to know how best to influence him for good.

After a short intermission Supt. Coughlin gave an address of Character Building. He said, in brief, that we are the creatures of habits, both mental and physical. We have habits of thinking and many physical habits that are done unconsciously each day. When children are forming habits, how important it is that they should form such habits as will go to make good character. They should be taught self-respect, self-knowledge, self-restraint. We all grow unconsciously like those things we love therefore the importance of holding high ideals before children. 215 had registered by Monday evening, more than are usually enrolled during the week.

Tuesday evening social session will be held on the school grounds. This will be in the nature of a campfire.

Tuesday Morning

The session was opened with devotional exercises conducted by Supt. Coughlin. The first address of the morning was given by Supt. Coughlin on "The Pedagogy of Reading." He said that it is important to distinguish between reading and learning to read. The teacher should proceed from the known to the related unknown, the known being the oral vocabulary a child already has and the related unknown the written or printed symbol of the oral. He then asked the question, "Is learning to read primarily a memory study or a thought study?" He said that he considered it a memory study, requiring visual, auditory and motor memory. The method used in teaching reading must include an orderly and related series of exercises leading to self helpfulness.

Dr. Hulley's address was on "Prevailing Tendencies in Modern Education." Everything is now tending toward popular education. He spoke of many of the changes that have been made and are now being made in the school system, among them being the elective system in high schools and colleges; new practical studies that are now being introduced such as agriculture, manual training, etc.; developments in high schools; establishment of graduate schools. One of the most serious problems to be considered in this process of changing is that of reorganization which requires careful thought.

TAKEN ILL

Very Suddenly Was Employe Of The Shops

Albert Alberts, an employe at the C. A. & C. shops, was taken suddenly ill while at work Tuesday morning at about 9:30 o'clock. He was assisted by fellow workmen until Dr. N. R. Eastman arrived to render attention. He was taken to his home on the Newark road, just south of the city, as soon as possible and now is in a much improved condition.

MYSTERIOUS

Case Is That Of A Young Boy At Danville

Found Unconscious In A Hay Now

Danville, Ohio, August 22—Bernard, the young son of Mr. and Mrs. Martin Hammond, residing west of Danville, was rendered unconscious, while at the home of Clement Durbin, about two miles north of this place on Tuesday morning in some mysterious manner.

The boy went to the Durbin home early Tuesday morning and was allowed to go into the yard to play. He was missed at some time near 10:30 o'clock and after one half hour's search was found lying in the haymow of the barn some distance from the house. Those who discovered him were unable to restore him to consciousness and Dr. E. L. Porter of Danville was quickly summoned.

The affected child was removed to the house and an examination of the case was made. The examination was of no avail, however, as the condition of the boy baffled all attempts to learn the cause. Dr. Porter remained in attendance for some time during which consciousness partially returned. The child was unable to talk or make himself understood.

The cause of the boy's condition is a complete mystery at present and will not be known until he is able to relate his experiences. It is probable that he will know how he happened to be unconscious as there are no marks on his body nor are there any bones broken that might indicate that he fell or that he was injured by any person. He had not fully regained consciousness on Tuesday afternoon but his condition is not thought to be critical.

When the digestion is all right, the action of the bowels regular, there is a natural craving and relish for food. When this is lacking you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They strengthen the digestive organs, improve the appetite and regulate the bowels. Mrs. H. C. Simons and two daughters left Tuesday morning for their home in Coldwater, Michigan, after a several days' visit with Mrs. Simons' sister, Mrs. J. H. Ransom of Coshocton avenue.

Prof. and Mrs. Joe D. Creveling and daughter, Helen Elizabeth, have returned to their home in Portsmouth, Ohio, after spending the summer with Mr. and Mrs. W. C. Creveling of Granville, Ohio.

PLEA

Of Guilty Entered By Eight Liquor Dealers

Of Newark Before Judge Seward On Monday

And Each Assessed Heavy Fine By The Court

But A Part Of The Same Was Remitted

Other Notes Of Interest From Temple Of Justice

(Newark Advocate)

In the common pleas court Monday morning 22 cases for violation of the liquor laws were called. In ten of these cases a plea of guilty was made and Judge Seward sentenced the persons so pleading to pay fines and costs as follows:

Samuel Burrell, \$500 fine and costs, \$200 of the fine being suspended during good behavior.

Jacob Shrader, \$200 fine and costs, \$100 suspended.

Robert White, on two affidavits, second offense, fined \$500 and costs on each one and \$200 suspended in each case.

Jerry Baker, on two affidavits, \$200 and costs on each, \$100 suspended.

Charles Slane, \$200 and costs, \$100 suspended.

Charles Richards, \$100 and costs, \$100 suspended.

The other cases are being heard this afternoon.

Robert White, who was sentenced by Judge Seward Monday morning to pay a fine of \$500 and costs on two different affidavits on the charge of violating the liquor laws, and in which \$200 was suspended in each case during good behavior, was arrested in Columbus Saturday by Detectives Shellenbarger and Norris on the charge of attempting to bribe a witness.

Harvey Rowley, a detective in the employ of the Anti-Saloon League, made the charge against White in the trial of White here Monday, and claims that White offered him \$500 if he would not show up at the trial.

They met at the Virginia Hotel Saturday, just before noon, and the detectives say that they were present and saw White pass Rowley \$500. White furnished bond in the sum of \$500.

The charge of attempting to bribe a witness is classed as a misdemeanor and is punishable by a maximum fine of \$500 and 60 days in the work house.

HISTORY

Of Knox County To Be Published Soon

Mr. Will L. Clark, the general historian and compiler for the forthcoming history of Knox county arrived last week and has already commenced his labors. He will delve into the past of the history of the county—use all that is good from former publications, boil down long drawn out reminiscences which have appeared in print as connected with the history of this county, and bring every subject up to date. This will require much labor and he asks the community to kindly respond to any communications he may send those living within the county, touching things both past and present. Any good historic item you may have in your possession or feel free to send him and do so at once for he, with others will speedily close up this historic work which was opened up almost a year ago, under the supervising editorship of Albert B. Williams, of Mt. Vernon.

Address all communications to Will L. Clark.

FARMERS

To Finance A Very Large Project

Ellensburg, Wash., August 23—At a special election next month the farmers of the Kittitas Valley will vote a bond issue of several million dollars for the creation of an irrigation district by the construction of a canal from Lake Kachess in the upper part of Kittitas County to their lands. It will be the biggest irrigation project yet undertaken in the State of Washington and the most colossal scheme of its kind ever financed by farmers in any section of the country. The land to be watered lies above the existing canals in Kittitas County, which is the nearest irrigated district within reach of Seattle, Tacoma and Puget Sound markets. Kittitas County is the largest hay producing county today in the Northwest and for some years has furnished the War Department the hay they used in the Philippine Islands. Of late years thousands of acres have been put in apples, pears and small fruit.

Accused of Stealing

E. E. Chamberlain, of Clinton, Me., boldly accused Buckien's Arnica Salve of stealing—the sting from burns or scalds—the pain from sores of all kinds—the distress from boils or piles. "It robs cuts, corns, bruises, sprains, and injuries of their terror," he says, "as a healing remedy its equal don't exist." Only 25c at G. R. Baker and Co., Mt. Vernon, and F. Fing Fredericktown.

Mr. William H. Smith and daughter left Tuesday morning for Burt, Iowa, where they will make an extended visit.

Mr. Henry C. VonWicklin of Louisville, Ky., formerly of Mt. Vernon, is the guest of relatives and friends in the city.

S.S.S. DRIVES OUT MALARIAL POISONING

Malaria is a disease which gradually destroys the strong, nourishing elements of the blood. When the malarial poison begins to absorb the rich, red corpuscles of the circulation, we see pale, sallow complexions and a general impairment of health. As the blood becomes weaker the appetite fails, digestion is disturbed, chills and slight fever are frequent, and in aggravated cases boils and eruptions break out on the flesh. Malaria is blood poverty, and the only way to cure the trouble is to enrich and purify the circulation. Nothing is equal to S.S.S. as a blood purifier, and it is especially adapted to the cure of malarial troubles because it contains no harmful minerals, and while ridding the system of the malarial germs, S.S.S. builds up the entire constitution by its fine tonic effects. If you are suffering with Malaria begin the use of S.S.S. and rid yourself of this weakening disease. Book on the blood and any medical advice desired sent free to all who write and request it. S.S.S. is sold at drug stores.
